## USAI Receives 2009 Next Generation Luminaires Award

February 16, 2010

Lighting manufacturer [USAI](#) announced that it has been recognized as a of a [2009 Next Generation Luminaires Award](#) for [BeveLED](#), a new recessed, LED adjustable downlight. A milestone achievement, the NGL Award — sponsored by the U.S. Department of Energy, and organized in partnership the International Association of Lighting Designers and the Illuminating Engineering Society of North America — affirms the high-quality, high-performance and energy-efficient qualities of BeveLED. The NGL Awards were presented last week at Strategies in Light, the leading event for the global LED and lighting industry.

Designed to celebrate market-ready products that exemplify the best luminaires in quality and consistency, the 2009 NGL committee selected USAI's BeveLED product as one of the stand-out winners among many entries. The rigorous technical requirements and evaluation criteria for NGL, established by DOE, IALD and IES, are based on performance, production readiness, practicality, and ease of serviceability for real-world lighting applications in the commercial specification market.
